

CHARLES UDENWOKE

Frontend Engineer

Abuja, Nigeria | 09067131362 | charlesudenwoke011@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Frontend Engineer with hands-on experience building responsive, accessible web applications using React.js, Next.js, JavaScript, and Tailwind CSS. Skilled in translating UI/UX designs into functional code and optimizing performance for seamless user experiences. Proven ability to collaborate in team settings, and deliver clean, maintainable code. Passionate about continuously learning modern web technologies, with a focus on building performant, accessible applications that deliver measurable impact.

TECHNICAL SKILLS

Languages:	HTML5, JavaScript (ES6+), TypeScript,
Frameworks:	React.js, Next.js,
Styling:	CSS3, Tailwind CSS, Bootstrap, Responsive design, Sass
API:	REST APIs, Axios, Context API
Tools	Git, GitHub, Vercel, Netlify, Webpack, npm, yarn, Vite, Figma.
Concepts:	Component-Based Architecture, Performance Optimization, Mobile-First Design, UI/UX Development, Semantic tags
Other:	Arduino Programming, Technical Communication, STEM Education

PROJECTS

Booking Portfolio: <https://booking-portfolio.vercel.app/>

GitHub: <https://github.com/charlespharrell/booking-portfolio>

Tech Stack: React.js, CSS, Vite.

- Built a fully responsive booking portfolio application with smooth and modern UI interactions.
- Integrated booking functionality(cal.com) and optimized page responsiveness across mobile, tablet, and desktop devices.
- Deployed and maintained application using Vercel.

Multistep form: <https://multi-step-forms.vercel.app/>

GitHub: <https://github.com/charlespharrell/multi-step-form>

Tech Stack: Next.js, Tailwind CSS

- Developed a responsive multi-step interface with reusable UI components and clean state management.
- Designed mobile-first layouts to improve accessibility and cross-device usability.
- Structured frontend architecture for scalability and easier future feature expansion.

PROFESSIONAL EXPERIENCE

Frontend AI Engineer July 2026 - Present

FlyRank, USA (remote)

- Built reusable, component-based UI architectures that improved maintainability, scalability, and code consistency.
- Integrated RESTful APIs to build dynamic, data-driven user interfaces while handling error, and asynchronous application states.
- Gained hands-on experience with AI fundamentals, including prompt engineering, LLM workflows, Claude AI, and integrating AI-assisted tools into modern software development practices.

Freelance Frontend Engineer Jan 2024 – Present

Self-Employed: Abuja, Nigeria

- Developed user-friendly web applications using JavaScript, React, and Tailwind CSS, focusing on performance and accessibility.
- Building frontend projects to strengthen expertise in web development, component-based architecture, and API integration.
- Continuously enhancing technical skills through hands-on development, debugging, and implementing best practices in responsive design and user experience.

Frontend Engineer May 2026 (1 month)

CodeAlpha: Lucknow Uttar Pradesh, India (remote)

- Developed and deployed responsive frontend web applications using HTML, CSS, and JavaScript.
- Built 3 interactive projects focused on responsive design, clean UI implementation, and user experience optimization.
- Improved frontend structure and maintainability through reusable styling patterns and organized code practices.

Frontend Engineer / STEM Educator (Web Development & Robotics) Jan 2023 – Oct 2023

Dumena Technologies: Abuja, Nigeria

Frontend Engineering:

- Developed and maintained interactive web applications to support classroom learning using JavaScript, HTML5, and CSS3
- Built demo projects and code examples that demonstrated core frontend concepts (DOM manipulation, responsive design, basic React components)
- Applied clean code principles and version control workflows to instructional codebases

STEM Education:

- Delivered web development, and robotics training to 100+ students across beginner and intermediate levels.
- Assisted students in building functional technology projects using programming and electronics principles.
- Improved student engagement through hands-on learning and structured technical instruction.

Frontend Web Developer intern Feb 2022 – Oct 2022

New Horizons: Lagos, Nigeria

- Developed responsive and accessible web pages using HTML, CSS, and JavaScript.
- Collaborated on frontend development tasks using Git-based workflows and structured coding practices.
- Improved interface responsiveness and usability across multiple screen sizes and browsers.

EDUCATION

Federal University of Technology, Owerri (FUTO) Jan 2016 – Oct 2021

Bachelor of Engineering (B.Eng.) — Mechatronics Engineering

Specialization: Computer Systems & Software Development

GPA: 4.23 / 5.0

ACHIEVEMENTS

- Best Graduating Student, Mechatronics Engineering (Computer Systems & Software Development) — 2021
- Third Best Graduating Student, Mechatronics Engineering Department — 2021
- Ranked Top 3 in TotalEnergies Internship Examination among 600+ applicants — 2019
